CMSC5719 Research Seminars

Advanced Rendering in Virtual Environments
Prof. Hanqiu Sun
Dept. of Computer Science & Engineering
The Chinese University of Hong Kong

Seminar assignment

From the Google search (typing: augmented shadows), check the related resources in augmented shadows (AS). Also, the Seminar web-link below gives 10 research papers in AS for your reference. Select 2 of the 10 papers (or from your Google search) in AS and read them. Write extended summary (~3 pgs) of the two AS papers you have read, to outline the work in terms of problems/issues, proposed approaches/techniques and results, using your own language in good presentation (also cite the 2 papers by the end). Try to sum up the 2 papers as one AS report, not separate ones.

The Seminar web-link (i.e. AS papers, AR videos) is the following:
