OCT 2004 - An unfortunate parking accident in Galway, Ireland sends a small white hatchback into the cold bay waters of Roundstone. What happens next is the exciting part. Makes you wonder if any of these guys ever had the right tools for the job.

1) With a submerged car in the water, *Walsh's Recovery* is called in to help fish it out.

2) The crane starts to lean forward

3) Oops! Make that two vehicles in the water.

4) Maybe they should have used a bigger crane.

5) After the *Walsh's Recovery* crane takes a drink, they decide to bring in the big guns. *Michael Long's Truck & Crane Hire* sends over a Palfinger crane and plucks the hatchback out of the water with ease.

7) Now it's time to pull the *Walsh* crane out of the water.

8) Oh no. The Walsh crane is starting to go down!

9) Time to hit the pubs. Hope the guy with the white car bought the first round.

*In case you were wondering, no one was seriously hurt. Just a few bruised egos.*

*Yes the last image is a **fake**. But all the others are real.*
