

Academic Org: Fac Office of Engineering – Subject: Courses offered by Fac of Erg

Course: ENGG1820 **Course ID:** 010224 **Eff Date:** 2020-07-01 **Crse Status:** Active **Apprv. Status:** Approved **[Course Rev]**
Engineering Internship 工程實習

The objective of the course is to enable students to have a basic understanding of the practical aspects of the engineering profession. Prior to the enrolment of this course, students must have completed not less than 8 weeks of full-time internship approved by the Faculty of Engineering. To be qualified for award of the subject credit, the student must submit a report, within the semester of enrolment, summarizing what he or she has done and learnt during the internship, together with a testimonial from the corresponding employer. Pass or fail of the course will be determined by the professor-in-charge, based on the report and the testimonial submitted.

Student may look for internship opportunities at the Placement and Internship Program (PIP) website administered by Centre for Innovation and Technology of the Faculty, or from any other sources available to him or her. Students are recommended to seek professor-in-charge's comment on internship undertaken before enrolling in the course.

Work-Study, the 12-month internship program organized by the Faculty, is a valid internship satisfying the requirements of ENGG1820.

Advisory: For year 2 or above Engineering Majors students. (new curriculum)

本科目標是讓學生對工程專業的實際工作有基本的認識。學生選修本科前，必須先完成不少於八星期全職、獲工程學院認可的實習工作。為取得本科學分，學生需要在修讀本科的學期內提交僱主評語和實習報告，說明實習內容及所學知識，負責本科的教授會根據報告和僱主評語的文本來決定學生是否及格。學生可以在工程學院創新科技中心管理的「實習與就業」網頁尋找實習工作，其他途徑覓得實習機會亦可以考慮。學生宜在報讀本科前詢問老師對有關實習工作的意見。工程學院主辦為期十二個月的「工讀計劃」，是符合本科要求的實習計劃。

參考意見：只供工程學院主修生於第二修業學年或以上修讀。（新學制）

Grade Descriptor: P
Performances meet, exceed, or far exceed expectation in relevant measurement dimensions; Overall level of competence: Moderate to High.
有關等級說明的資料，請參閱英文版本。
U
Performances do not meet expectation in most relevant measurement dimensions; Overall level of competence: Not reaching the basic standard.
有關等級說明的資料，請參閱英文版本。

Equivalent Offering:
Units: 1 (Min) / 1 (Max) / 1 (Acad Progress)
Grading Basis: Pass (P)/Fail (U)
Repeat for Credit: N
Multiple Enroll: N

Topics:

COURSE OUTCOMES

Learning Outcomes:

The student will have a basic knowledge in the practical aspects of the engineering profession. He or she should have exposed to and appreciate the characteristics of an engineering working environment. Typical knowledge learnt will be workplace etiquette, employer expectations, management structure of engineering or project team, industrial standards and practices, trends and common issues in specific industry, etc..

Course Syllabus:

To be provided by course instructor.

Assessment Type:

Essays : 100%

Feedback for Evaluation:

Course evaluation by students

Required Readings:

No reading list for this course.

Recommended Readings:

No reading list for this course.
